

Time, Time, Time

Suppose your bank credited your account each morning with \$86,400, carried over no balance from day to day, and allowed you to keep no cash in your account. Then suppose that every evening the bank canceled out whatever you failed to use during the day.

All of us have such a bank. Its name is time. Every morning it credits us with 86,400 seconds. Every night it removes whatever time we fail to invest for good. It carries over no balance and allows no overdrafts. Each day it opens a new account. If you fail to use the day's deposits, the loss is yours.

There is no going back with time. There is no going against tomorrow. You must live in the present on today's deposits. Ephesians 5:15-16 says, "*See then that ye walk circumspectly, not as fools, but as wise, Redeeming the time, because the days are evil.*" Invest it in order to get from it the very best in service to God.
